This report tracks land development projects, beginning with zoning actions (if necessary), through site plan review, to construction and culminating in the issuance of occupancy permits. Once an application completes one stage of the development process, it will remain in that section of the report as a completed project and will be added to the next section of the report as appropriate. Therefore, over the course of time, a single project may be listed in this report three times. The color coding is intended to clarify the current status of each application, and is explained at the bottom of each page for easy reference.

Note: The applications included in this report represent only the “parent” application of these projects. It should not be construed as a measure of workload within the departments involved in the land development process.

Development Pipeline Summary

	# of Applications	Office	Retail	Square Footage		Total	Residential Units

Notes:

1. Rezoning and Special Exception applications involving new construction. Does not include amendments to existing zoning unless additional square footage is proposed. If concurrent Rezoning and Special Exception applications are in process for the same project, the project is only counted once here.
2. Rezoning and Special Exception applications that have received Council approval since January 1, 2012 but have not yet submitted a site plan or subdivision plat. Applications that were approved prior to January 1, 2012 and have not submitted a site plan are considered inactive.
3. Site plans that have been approved since January 1, 2012 but have not had a building permit issued by Loudoun County. Site plans that were approved prior to January 1, 2012 but have not received a building permit are considered inactive.
4. Square footage numbers do not account for existing buildings that have been or will be demolished.
